

NAME COMMITTEE ON SANITATION

Chamber of Commerce to Cooperate With Doctors, For Public Health.

At a meeting of the directors of the chamber of commerce, held Tuesday afternoon, president R. B. Grindorf announced that a standing committee on health and sanitation had been named with W. G. Roe as chairman. The other members of the committee are R. M. Dudley, Dr. W. W. Walte and Charles W. Fraser. This committee will act in conjunction with the El Paso Medical society in considering the public health. The directors also appropriated \$500 for the use of the local lodge of Moose in attempting to influence the grand lodge of that order which meets in San Diego, Cal., during the week of July 19, to vote for El Paso as the location of the proposed Moose sanitarium. The sum of \$500 was voted for the local lodge of Elks, which will send a large delegation to attend the supreme lodge of that order, which will hold its annual convention in Los Angeles during the week of July 12.

MRS. WILLIAMS' LONG SICKNESS

Yields To Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

PERUNA

For Catarrhal Conditions OF HEAD, THROAT, LUNGS, STOMACH, AND OTHER INTERNAL ORGANS. LEADER THE WORLD OVER. Be sure you have some in the house ready for emergencies.

Praser Explains Amounts. The difference in the amounts voted by the two organizations should not be regarded in the light of discrimination, said secretary Malcolm A. Praser, of the chamber of commerce. "The Elks, through their exalted ruler, Roy Barum, asked the chamber for \$200 and they got all they asked for. The Moose asked for much more, but got all the chamber of commerce could spare in the light of the condition of its treasury. There was no question but that both organizations will do much good work in the way of advertising El Paso and its advantages from many points of view, and each given all the financial assistance which could be given at this time.

Moose Want \$4000. A committee representing the Moose, consisting of C. E. Kelly, Judge James R. Harper, E. P. Phelan, W. J. Moran and C. E. Pollock attended a meeting and made an appeal for a fund sufficiently large to enable the sending of a big delegation to San Diego to fight for El Paso as the location of the proposed sanitarium, but when it was made plain that the \$2000 asked for could not be given by the chamber of commerce for the reason that there was not that amount of money in the treasury, the committee said that they would at once appeal to the people to subscribe the funds needed to make a good showing for the city at the grand lodge meeting at San Diego. Mr. Kelly started a subscription list on the spot with an offer to give \$200 to the proposed fund. A mass meeting will be held at the Elks club on Texas street tonight for the purpose of arousing public interest in the matter and with the hope that the fund may be liberally subscribed.

At the request of the San Francisco chamber of commerce, a resolution was adopted that the congressional delegation from the state of Texas would be asked to take action in congress looking to the safeguarding of the rights of American ship owners and the upholding of an American merchant marine.

Applications for membership were received from R. M. Dudley, F. M. Bannell and J. M. Loney. Advertising Committee Meets. At a meeting of the advertising committee of the chamber of commerce, held in the office of H. S. Beach, the contract for the printing of the new booklets being got out by the committee was awarded to the El Paso Printing company, the bid of the latter being the lowest received from any of the El Paso printing houses. The job contemplated the printing of 10,000 copies of a new illustrated folder, descriptive of El Paso and Las Cruces and the agricultural possibilities of all the valleys from the delta to Port Hancock, and a revision of the booklet published a year ago revised to date.

Adolescent Convention Report. A verbal report on the work of the committee advertising department of the Chicago convention of the Adolescents was made by H. E. Sherman, who was one of the El Paso delegates to that convention, and who is also a member of the advertising committee of the chamber of commerce. The proposition to establish a branch of the publicity bureau of the El Paso chamber of commerce in Kansas City was temporarily shelved because of failure to make satisfactory arrangements with the officials of the new union passenger station in that city. George R. Clements, publicity director, made a report of the work of the publicity since he has been in charge and explained the system employed in the office for keeping in touch with all inquiries and for arousing interest in the lands in the valleys tributary to El Paso.

INTERNATIONAL ROTARY VICE PRESIDENT TO BE HERE

When the Texas delegations of Rotary club members arrive here on July 12 en route to the annual convention of the International Association of Rotary clubs, Robert H. Cornell, of Houston, one of the international presidents, will be with them. Writing to S. C. Aubrey, of El Paso, chairman of the entertainment committee from the local club, Mr. Cornell says he knows that "El Paso will leave a never to be forgotten impression of their hustling life."

"It is to be hoped that the El Paso club will come up to our expectations in the entertainment we will give the Texas visitors, and we do not think we will fall short in the program we have arranged for taking care of these people," said Mr. Aubrey.

The two special trains—one from north Texas and the other from south Texas—will arrive here July 12 at 11:20 a. m. and depart at 12:20 a. m. July 13.

BAILEY MAKING EYES AT TOGA

Believed He Is in Texas Fixing Political Fences; He May Defend Brewers.

Austin, Tex., June 30.—Former senator J. W. Bailey who came down from Washington several days ago and has been making a tour of the principal cities of the state, is incidentally, it is said, sounding the sentiment of the state in the prohibition situation. Notwithstanding the fact that Mr. Bailey made the announcement a few weeks ago that he had decided not to become a candidate for the senate to succeed senator Charles A. Culberson, it is the belief of some of his intimate friends that he will reconsider. Mr. Bailey once resigned from the senate and a few hours later withdrew his resignation. For this reason it would cause no surprise if he should decide after all to run for the high office that he formerly occupied.

During his stay in Austin Mr. Bailey conferred at length with attorney general R. E. Looney. This meeting gave rise to two reports. One is that Mr. Bailey had been offered employment by Mr. Looney on behalf of the state, to assist in the prosecution of the anti-trust suit against the domestic and foreign breweries which is pending in the district court of Suburban Springs. The other and what is considered to be the most likely report is that Mr. Bailey has been retained by the state to assist in the suit and that he conferred with the attorney general in regard to certain phases of the case. Mr. Looney made denial that Mr. Bailey has been or is to be employed to assist him in the suit. No denial has been made of the other reports.

Referring again to the senatorial situation, it is interesting to note that it is persistently reported that former governor O. R. Colquitt has decided to abandon his plans for making the race against Mr. Culberson and the other contestants.

Two Congressmen Busy. Congressman George F. Burgess, of Gonzales, and Robert L. Henry, of Waco, both of whom are seeking Culberson's seat, have inaugurated their respective campaigns. Ever since the adjournment of congress they have been touring the state in the interest of their candidacies.

Mr. Culberson has done no speech-making as yet, but he is quietly organizing his working political forces. His opponents are trying to make it appear that his health is so badly impaired as to make him unfit for another term as senator, but Mr. Culberson offers himself as a living denial of the reports of the reports of his character. He claims that he has regained his physical strength and that he is well and fit for the job.

X RAYS MAY KILL OR CAUSE CANCERS TO INCREASE GROWTH

Chicago, Ill., June 29.—The National Society of Physical Therapeutics convened today for its 22nd annual session, in joint meeting here with the American Institute of Homeopathy. President E. P. Mills, of Orem, Utah, in his address reviewed various mechanical and physical measures in the treatment of disease, dwelling upon the value of sunlight, X-rays and radium. In part Dr. Mills said: "An exposure to the rays of a cancerous growth may either destroy it and induce fibrosis—nature's method of healing—or it may stimulate its growth, the technique deciding what the effect will be. The hands of almost any of the earlier workers in the X-ray bear evidence of the dangerous effects of this useful agent, if they did not possess the power to do harm, they could not have the power to bring health."

Sunlight is one of the great gifts of nature. It is the greatest disinfectant in the whole list and is necessary for the healthy development of all forms of life. Deprived of it, either vegetable or animal forms do not reach their normal growth. "As to radium, its effect on the nervous system is applied for a number of hours it produces paralysis. Radium has rewritten physics and has opened new avenues for human thought, which may lead to the solution of the mystery of life itself."

ALABAMA GOES "DRY" TONIGHT

Joins Prohibition States at Stroke of 12; Six Counties Have Had Saloons.

Birmingham, Ala., June 30.—After trying prohibition for four years, and then limited saloons for four years, this state will again become totally dry upon the stroke of midnight tonight. No longer will the six counties in which liquor is now sold be cases in the arid desert of Alabama. The counties are: Jefferson, Mobile, Montgomery, Pike, Madison and Colbert. One dispensary and approximately 12 saloons will close.

Many of the liquor dealers are bitter against the law which puts them out of business, while others accept the situation philosophically. None of them express the belief that they will be permitted to open again in this state.

Cannot Be Shipped in Quantity. The law which makes Alabama today dry passed about six months ago by the legislature and allowed the liquor men until tonight to get their affairs in shape and go out of business. Along with this law, measures were also passed prohibiting the advertising of liquor within the state and making it illegal for express or railroad companies to accept shipments to firms or individuals in excess of two quarts every thirty days. These measures are signed to prevent the state being flooded with literature and wet goods by mail-order houses outside the jurisdiction of Alabama courts. Both measures have been upheld by the courts.

Unique Signs Displayed. The anti-prohibition law led many of the liquor men to resort to ingenious schemes to get their wares before the public. One of them, occupying a corner, had a huge sign painted covering the entire side of his place of business. Hot-car letters informed passers by that "the courts will not let us advertise what we have inside but we have plenty of it, cheap."

Another saloonist, named August Meyer, displayed a sign reading: "The first of July will be the last of August. Prepare for a cold wave in December."

DETAILS AND CHANGES ARE MADE IN THE SIGNAL CORPS

Washington, D. C., June 29.—The following army orders were issued today: Capt. J. B. Douglas, signal corps, is relieved from duty at Fort Leavenworth and will proceed at proper time to San Francisco to sail Aug. 5 for Honolulu for duty in Hawaiian department.

Capt. E. G. Abbott, signal corps, is relieved from duty at Fort Leavenworth and will proceed at proper time to San Francisco to sail Sept. 4 for Philippines for duty as commanding officer, field company I, signal corps, relieving Capt. J. B. Christian, who will proceed to Fort Leavenworth, Kas., for duty.

Orders of June 4, relating to captains J. B. Douglas, E. G. Abbott and J. R. Christian, signal corps, are revoked.

Pay Clerk H. A. Vieland, quartermaster corps, now on duty at Fort Sam Houston, will proceed to Texas City for temporary duty with Second division.

Second Lieut. W. R. Connolly, Seventeenth infantry, will proceed to Fort Sam Houston for examination to determine fitness for detail in aviation section of signal corps, thence to proper station.

The retirement of Capt. C. M. Allen, Second infantry, approved by the president and he will proceed to his home. Leave of absence: Capt. E. G. Abbott, signal corps, for 4 months, beginning Sept. 1; Capt. H. L. Lander, coast artillery corps, two months; First Lieut. R. H. Hamilton, Second cavalry, two months; Second Lieut. G. Callum, Fourth cavalry, two months.

AUTO TAIL LIGHTS NEED NOT BURN ON LIGHTED STREETS

The holding of tail lights on automobiles left extending downward at night under the glare of electric lights is not necessary, and a section is to be inserted into the traffic ordinance exempting auto owners from it, according to Mayor Tom Lea. "The ordinance now requires that all automobiles standing on the street at night must bear tail lights," said the mayor, "and no exception is made. Enforcing its provisions, the police have the most arrested people for failing to burn tail lights, notwithstanding that the car might have been standing under a big electric street lamp. The council is going to insert a clause in this ordinance exempting auto owners from the provision where the cars are standing under or near enough to electric lights to make it obvious that the tail light is not necessary to warn the public of the presence of the car. Complying with the law as it stands, only one up batteries for no good whatever."
